

Engagement with this project will be a great activity for community groups, parish and town councils and members of the public, and aims to achieve a balance between Devon County Council's primary function of road safety and opportunities for community involvement in road verge manage for wildlife.

Devon County Council has produced a step-by-step guidance document on how to manage a road verge for the benefit of wildlife, whilst also ensuring members of the public remain safe. For more information on this guidance, please visit the Devon County Council's '[Managing verges for Wildlife](#)' [webpage](#) or contact the DCC environment team on nature@devon.gov.uk
