

Issue 31 – October 2016

Living Well at Home Guidance update

We have updated the [Living Well at Home Guidance](#) to version 3.1. Please make sure you have the correct edition to refer to.

So what has changed in Version 3.1?

- 1) Information regarding Extra Care Housing.
- 2) Simplified process regarding the agreement to go out to the spot market if the Primary Provider is unable to source the package:
 - No requirement for the care manager to gain TM approval.
 - No further requirement to email the LWAH mailbox with details of the spot provider
- 3) How to Process Temporary Changes - this process has not changed *because* of Living Well at Home, but has come up following a request for clarity from practitioners.
