## My Assessment: Reducing a question in the 'review' tab

It was decided via the Way We Work meeting in September that this question: 19.1.5, is no longer required in the review tab of the My Assessment. The data is no longer required.

It will no longer feature in My Assessments from Thursday 20 October.  
There is nothing further you need to do about this.

 19.1.5: Assessor's summary: Did the existing support arrangements achieve the intended outcomes?  
Consider whether the support outlined in the existing support plan has been effective in achieving the outcomes specified.  
If the desired outcomes have changed, amend detail "Summary and Outcomes" tab accordingly.

Answer: Support ineffective & changes needed

The outcomes can still be recorded in 19.1.4.

 19.1.4: Is support achieving the agreed outcomes?
