

# Heart of the South West

## **Brexit Resilience and Opportunities Group (BROG)**

A new Brexit Resilience and Opportunities Group (BROG) has been set up to consider the potential impacts of Brexit on the Heart of the South West, to better understand the key issues and take advantage of opportunities. Made up of a group of Chief Executives of local authorities and the Local Enterprise Partnership, BROG will:

- Bring partners together
- Identify the opportunities of Brexit and embrace them
- Understand issues and resolve them
- Share information and expertise
- Support and enhance the work being done to deliver a devolution deal and Productivity Plan
- Influence Government and other decision-makers.

The Group is developing its work plan at the moment and is keen to hear from all stakeholders who are experiencing challenges as a result of the Brexit vote, or have identified opportunities to influence Government's plans or local activity. Early objectives are to understand the issues for agriculture, construction and the labour market and we would be glad to hear from organisations and groups with ideas or concerns.

Hattie Winter ([Hattie.Winter@heartofswlep.co.uk](mailto:Hattie.Winter@heartofswlep.co.uk)) provides Secretariat for BROG.
